Testimonial Letter of Reference

From: William Koegler, Retired Director National Training Center @ Oglebay; Retired VP of Operations @ Oglebay Park, Wheeling; Board member of the National Association of Park Foundations; Executive Consultant of ReCreate Park Planners; Member of the American Academy of Park and Recreation Administration; and Executive Director of WLK Consulting.

Subject: Mr. Brad Chambers

I am pleased to offer this letter in support of Mr. Brad Chambers. I have known Brad in various capacities for over 25 years, since the early 1990s, when he was involved as a Board of Regent @ Oglebay Schools and Chairman of the Board of Regents @ both the Supervisors Management School and the Sports Management School. He is known and respected as a “Professional’s Professional”. He is both a friend and colleague for whom I have the utmost admiration and respect. We have worked together on numerous planning projects for local organizations and organizations across the nation and have recently partnered on a new project for eco-energy management for P&R agencies.

Brad has an extensive Resume and an outstanding career and has held numerous Directors positions. He is a subject matter expert on nearly all phases of Park and Recreation operations and administration and his outstanding writing ability has been invaluable to our consulting partnership.

I am privileged to support Brad and am available via phone or email to discuss his attributes, 304-281-0630, wlkconsults@gmail.com
